Bruce A. Rosenzweig, M.D.

1 MR. SNELL: Let's go back on the record.

2 BY MR. SNELL:

3 Q. When you utilized the mesh in the TVT
4 and TVT-O devices, can you just tell me what year
5 span are we looking at?

6 A. I think I testified in my first
7 deposition I started using the TVT Retropubic in
8 2003 and stopped using the TVT family of products
9 in 2006 to 2007.

10 Q. So, obviously, you would have used the
11 mechanical cut TVT mesh, correct?

12 A. That is correct.

13 Q. And did you use the laser cut TVT mesh
14 as well?

15 A. As I testified in West Virginia, the
16 laser cut mesh most likely came out after I stopped
17 using the mesh.

18 Q. Have you done any investigation, gone
19 back and looked at your hospital's records to see
20 if they at any point in time in 2006 or 2007 had
21 the laser cut TVT-O mesh?

22 A. No, I have not.

23 Q. Is it possible that you may have used
24 the laser cut mesh in the TVT devices, it's just
25 you don't essentially know as you sit here today?

Bruce A. Rosenzweig, M.D.

1 MR. ZONIES: Object to the form.

2 BY THE WITNESS:

3 A. I don't essentially know.

4 BY MR. SNELL:

5 Q. When you wanted to do a TVT-O procedure
6 in your hospital, how would you make sure that you
7 had the TVT-O there?

8 A. From my understanding of the purchasing
9 is that they purchased a block number. I can't
10 tell you how much that block number was.

11 Q. Were there any times when you wanted to
12 do a TVT-O procedure but the hospital didn't have
13 it in its inventory?

14 A. Not that I recall.

15 Q. Did you ever have that happen with any
16 other devices? What I mean is you intended to go
17 in and use a certain medical device but your
18 hospital didn't have it on inventory so you had to
19 revert to something else?

20 A. I would say that that is a likelihood
21 that that's probably happened.

22 Q. Has that happened with regard to
23 surgical tools like if you wanted to use a certain
24 type of Metzenbaum scissor but it wasn't on the
25 tray and it wasn't there in the OR, would you shut

Bruce A. Rosenzweig, M.D.

1 down the surgery to go find the specific type of
2 Metzenbaum scissors or would you proceed with what
3 you had on hand?

4 A. It all depends on how mission critical
5 that device was.

6 Q. Did you have a standard surgical list
7 that you utilize so that when you were going to do
8 a particular surgery they knew what instruments you
9 wanted in the surgical room?

10 A. Something like a preference card?

11 Q. A preference card or a standing orders
12 list.

13 A. We had preference cards.

14 Q. You had a preference card for the TVT-O
15 procedure?

16 A. I don't recall.

17 Q. Did you have a preference card for the
18 TVT Retropubic procedure?

19 A. I don't recall.

20 Q. Did you have any TVT-O patients who you
21 believed any complication they had after was due to
22 laser versus mechanically cut mesh?

23 A. I don't think I can answer that
24 question.

25 Q. When you would be doing the TVT-O
